

New Partner in Hungary

Zoltán Fodor, Adrienne Deak, Zsuzsa Csatóry, Viktoria Kiss, Gábor Koncz and Andras Csatory in the EuroMove office in Hungary

EuroMove & Relocation, the premier provider of services in Hungary managed by Adrienne Deak, is the 13th one-group partner. The appointment of EuroMove is one-group's first step into offering full relocation and moving services in Eastern Europe. We look forward to have EuroMove join our meetings at IAM in San Diego and FIDI in Portugal, where agents can get to know Adrienne and her team personally.

one-group partner Vinelli & Scotto sponsored "Urban Ghosts"

Our one-group partner, VINELLI&SCOTTO, co-sponsored a site-specific project named "Urban ghosts" by an Italian artist Roberto Cambi that was opened during the International Design Week in Milan last April. A large installation of about 150m² consisting of 150 illuminated ceramic ghosts hung around an arch (5,70m tall and 6m wide) in random order in the court of the architectural and engineering company, "Lombardini22". V&S provided the logistic support and the equipment to assist the artist to position the structure and install the ceramic ghosts.

Laura Busetini says: "It has been very exciting for us to support this art project and to think that in some way we contributed to the success of this exhibition which will remain open until October 31st, 2010. We embrace this project with enthusiasm, not only for the beauty of the sculpture, but also for its meaning." The Artist says: "The objective of this installation is to create emotions; the ghost represents symbolically the man's fear, the unexplored and the uncertainty that now, more than ever, is present in our society."

EURA-Quality Seal for Germany, France and Spain

Since our last newsletter another 3 one-group partners were awarded with the EURA Quality Seal: Donath International in Germany, Grospron Relocation in France and S.I.T. in Spain. The EuRA Quality Seal is the most recognized company certificate a relocation service provider can receive in Europe and the world's first accreditation programme for relocation providers.

Quality Training in Paris

Participants at Quality Training in Paris

The Quality Committee prepared our first Certificate Training for one-group partners in Paris with great success. The aim was to guide partners through the first steps of each certificate, point out advantages, challenges, show samples and provide useful contacts for those who are starting the certificate process of the EURA Quality Seal, ISO 27001 and ISO 14001.

Green Celebrity

Always aiming to 'be green' and actively involved in environmentally focused events, volunteers from Celebrity International Movers in Athens, Greece headed to the outskirts of the city to plant trees for the United States Embassy's 'Spring Reforestation Program.' Celebrity joined more than a hundred volunteers incl. the American Ambassador to Greece, Daniel Speckhard. More than a thousand trees and bushes were planted to help revitalize the landscape and vegetation in the areas west of Athens, ruined by summer wildfires.

John Aliferis (planting a tree), Daniel Speckhard, the American Ambassador to Greece, and Marissa Benekos from Celebrity take a break from replanting trees in wildfire damaged area of Greece.
